THE INTERIOR SPACE PRESERVED FOR THE BENEFIT OF A GREATER ENERGY RESERVE!

With the EZA Offboard subframe batteries, you can benefit from large energy reserves in suspended, waterproof boxes.

In a special van model with a capacity of 200A or in a motor home version with 400A, choose absolute comfort and supply all your needs on the move without worrying about autonomy.

The ENER-G-CH is a 100% waterproof and IP67 certified LIFEPO4 Lithium battery that has been developed with components to meet the IP67 standard to ensure a perfect seal against water, mud and dust.

It also incorporates a heated film to allow it to recharge in temperatures as low as -20°C. The batteries have a Bluetooth module and come with a remote LCD display with an 8 metre cable for easy installation of the display inside the vehicle.
